

Operating Equipment in 2C3B

Turn on Projector: Using the DuKane projector remote aim remote towards projector on the ceiling and press ON.

To **project the computer**, make sure the tan switcher is set to computer (A). Then press RGB on the projector remote until the computer is displayed. The computer input is on RGB 1. (Turn the computer and the computer monitor on if necessary by pressing their power buttons and operate the computer and you normally would.)

To **project the document presenter**, make sure the tan switcher is set to doc presenter (B). Then press RGB on the projector remote until the document presenter displays. The document presenter input is on RGB 1. (Turn on the document presenter by pressing its Power button.)

To **project the VCR or DVD**, press VIDEO until VCR/DVD displays. The VCR/DVD player is on input VIDEO 2.

To **adjust VCR/DVD audio** use the projector remote. Volume buttons are on the top right of the remote.

When Finished:

Turn off the projector pressing the OFF button TWICE on the projector remote.

Turn off the document presenter.

Turn off the VCR

You may leave the computer on.
